

## Mouth Injury

**1** Rinse the dog's mouth with in a turkey baster filled with water

**2** Provide room temperature water for him to drink

**3** If there is a cut in the mouth dab some Anbesol with a cotton swab if you can do so without being bitten

**4** Take your dog to the vet as soon as possible to have him checked out

 DO NOT feed your dog until the vet has a chance to check him out

 Make sure to flush the mouth thoroughly to get rid of any debris
