

## Scorpion Sting

**1**

Reassure and keep the person calm.

**2**

Clean the wound with mild soap and water.

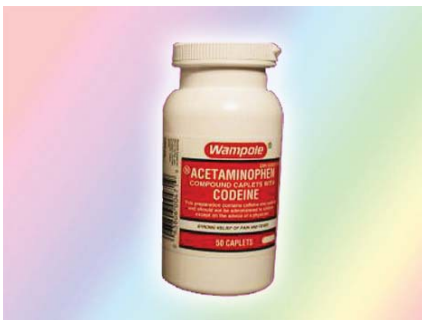

**3**

Apply a cold compress by placing ice wrapped in cloth or a cold compress over the affected area (cool the area for up to 2 hours).

**4**

Keep the affected area lower than the victim's heart level

**5**

Give acetaminophen for minor pain

**6**

Seek medical attention promptly at the nearest emergency center

Scorpion stings are more dangerous to young children.

Make sure the person is not allergic to acetaminophen.

Keep the person calm and quiet
